ORGANOID

ICONIC

SURFACE

DESIGN

Natural surfaces for rooms with *character*

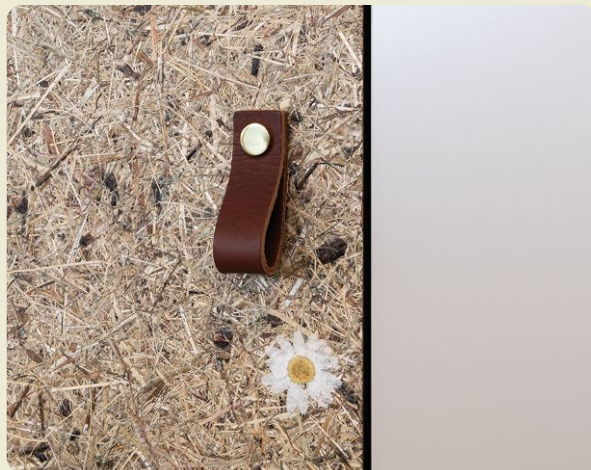

At ORGANOID, *nature, design, and innovation* come together. We create multisensory surfaces made from genuine natural materials that improve the indoor climate and allow spaces to be experienced *with all the senses*.

WALLS & CEILINGS

WOOD & FURNITURE

VISUAL SURFACES & CUSTOM DESIGN PIECES

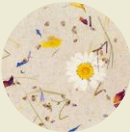

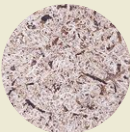

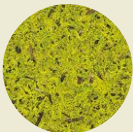

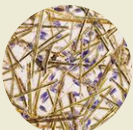

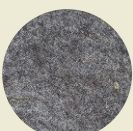

Natural Designs for every application

As a design element, our natural surfaces offer **maximum design freedom** and can be used flexibly in almost any project.

Genuine natural materials remain fully experientable in terms of their **appearance**, **feel** and **effect**. They give interiors a sensual, authentic materiality and create a tangibly pleasant atmosphere.

Our goal is to bring the **positive effects** of nature into indoor spaces – with creative freedom, thoughtful functionality, and an experience that **engages all the senses**.

Natural *expressiveness* – inspired by flowers, change, and lightness

Inspired by the fascinating colors and textures of nature, ORGANOID Highlight surfaces bring **vibrancy** and **expressiveness** to interior spaces.

01

01 Jungle King

From the vibrant explosion of color in **Super-bloom**, to the tropical elegance of **Jungle King**, to the delicate poetry of **Rosy Everlasting** – each surface tells its own unique story and transforms the room into a sensory experience of nature.

02 Jungle King Showroom Austaron Surfaces / Australien

03 Superbloom

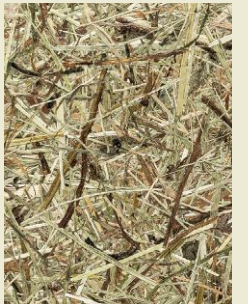

04 Rosy Everlasting

05 Violette

The *clarity* and *freshness* of the Tyrolean mountains

Real mountain hay from the Alps and colorful flowers offer a wonderful memorable **sensory experience**.

01

01 Wildspitze

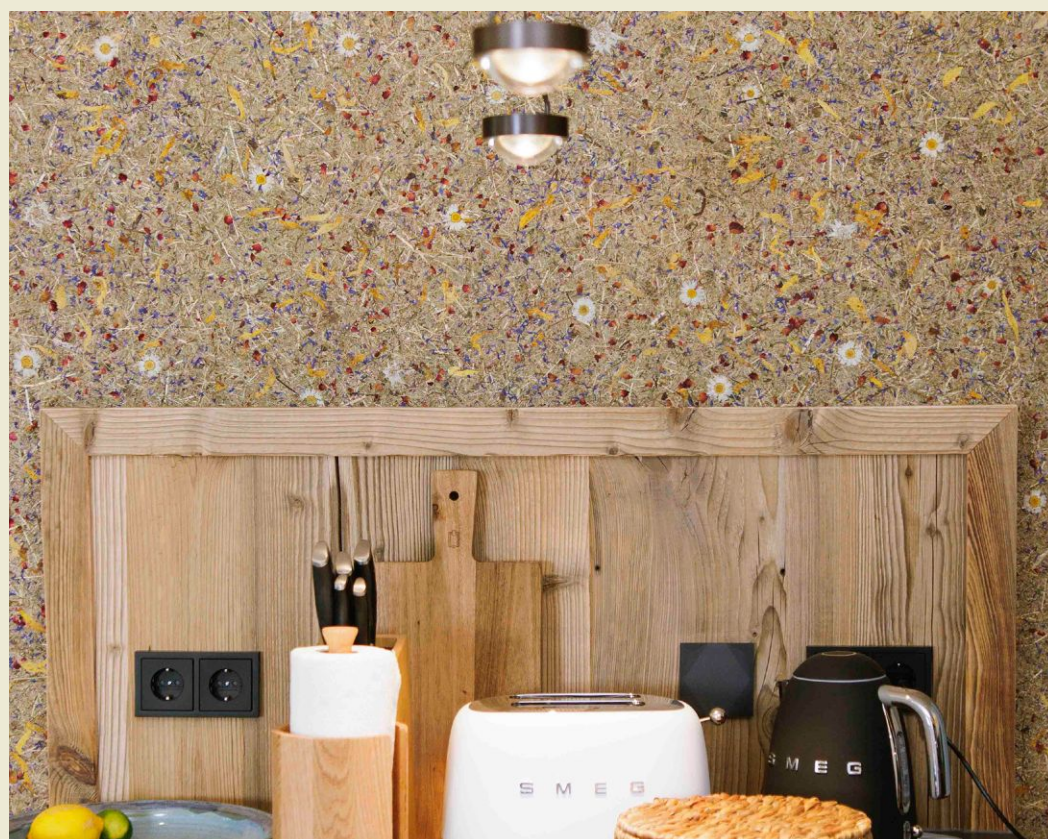

Depending on the season, the altitude, and where exactly you are in the Alps, the flora changes. Our wonderful surfaces made of pure, natural **mountain hay** from the **Tyrolean Alps** bring this biodiversity directly into your interior. You can expect a refreshing **hay scent** that relaxes the mind with its unique blend of natural aromas and provides inner **peace** and **clarity**.

02 Alpine Meadow Zahnarztpraxis Bischof und Gasser

03 Wildspitze Hotel Hochzillertal / Fotoschmiede

04 Mountain Meadow LeLa Apartments / Chiemsee

05 Wildspitze Blue Sky Platzl Hotel Inselkammer KG

Reaching *the top*

Loosely scattered natural fibres on multifunctional carriers support a pleasant indoor climate and ensure a sense of **well-being**.

01

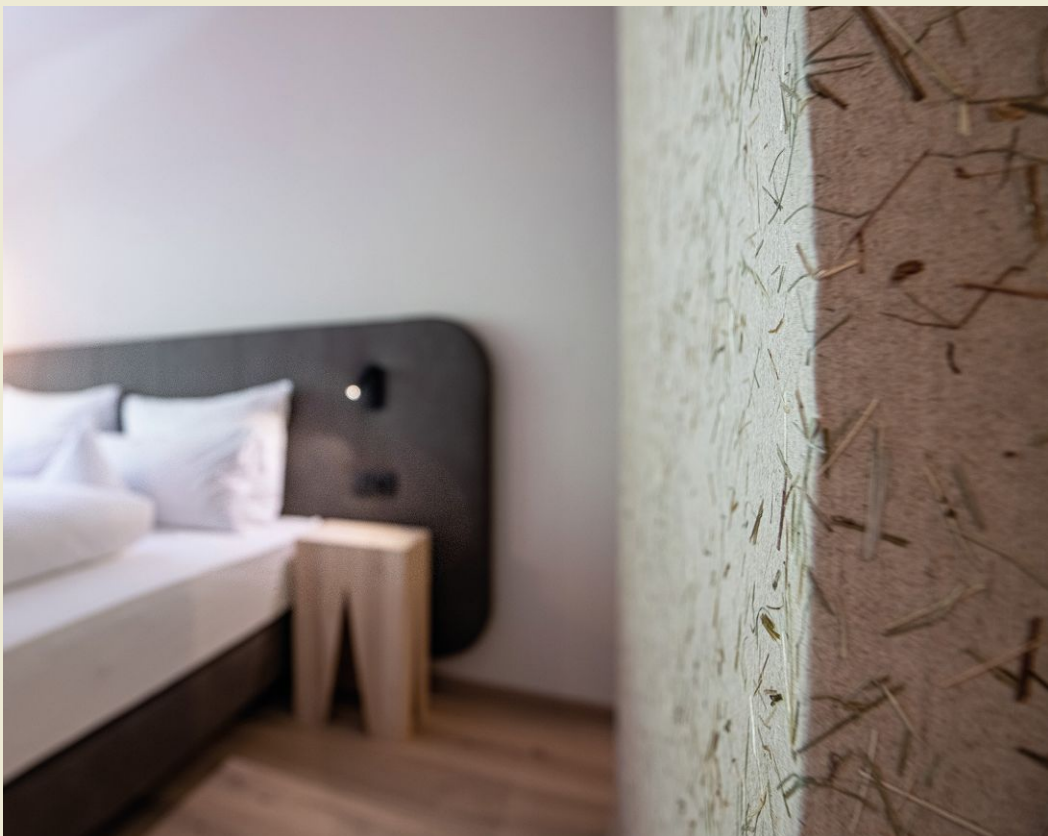

At the very top of the Alps, vegetation becomes **sparser**, with plants defying extreme climatic conditions on barren rocks. And yet here and there you can find a blade of grass or a fragrant flower.

02 Alpine Meadow^{light} Zahnarztpraxis Bischof und Gasser

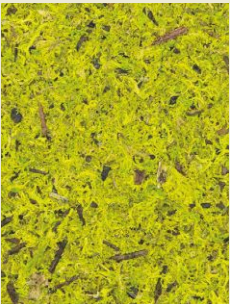

03 Alpine Meadow^{light} Venttri

04 Wildspitze^{light} Naturhotel Molin in Südtirol

Close to the forest

Experience the **healing effect** of a **walk in the woods** and the wonderful properties of refreshing moss for thoughtful interior concepts.

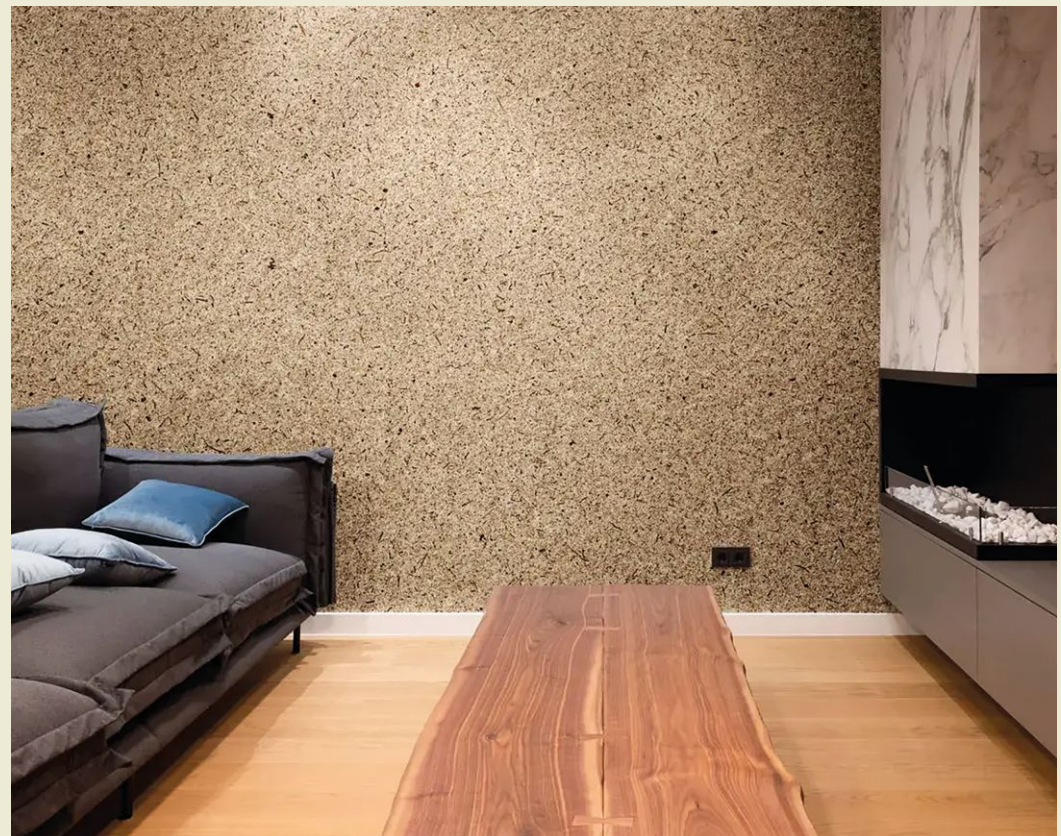

01

01 Moss Light Green

Surfaces made from genuine natural materials bring the green **diversity of the forest** into your rooms and create a healthy indoor atmosphere. Create your own personal **forest oasis** with **natural shades of green, refreshing scents,** and a positive indoor climate.

02 Stone Pine Forest Showroom Austaron Surfaces / Australien

03 Moss Grey

04 Moss Mix Showroom Austaron Surfaces / Australien

05 Moss Mix Holz & Leim / Björn Hokamp

Mediterranean
sensory experiences
full of warmth
& lightness

Soothing and **fragrant herbs** from the **mediterranean** bring sunshine to you.

01

01 Lavender medium

ORGANOID's natural surfaces, crafted from **mediterranean materials**, bring a sense of warmth to your interior. Fragrant **medicinal herbs**, an uplifting color palette, and sustainable carrier materials – it's a joy to experience and makes you **long for the sea!**

02 Lavender^{medium} Cafe FLUZZ Kufstein

03 Relax The Shard in London

04 Vine Leaves^{medium} Warren & Mahoney New Zealand

05 Carpe Diem Showroom Austaron Surfaces / Australien

Jewels of *nature*

Vibrant colors and **wonderful scents** combined with design. Creative interior design featuring rich colors can really make you happy and put you in a **good mood**.

01

Our colorful surfaces create a unique atmosphere that leaves a lasting impression and evokes emotions. Let yourself be enchanted by **fragrant roses**, **stimulating coffee** and vibrant **blue cornflowers**.

02 Cornflower Blue POSThome in Rom Thirtyone Design + Management / Valentina Sommariva

06 Cornflower Blue A Casa Ovunque 24 / Valentina Bianco / Marta Meda / Madoti Kids Lab / Andrea Ruggieri

07 Coffee Leather CARMEL / Business Showroom Israel

Unique
elegance and
delicate *luxury*

You are surrounded by fine materials,
fascinating shapes, and **shimmering colors**.
And it's all thanks to the elegance of nature.

01

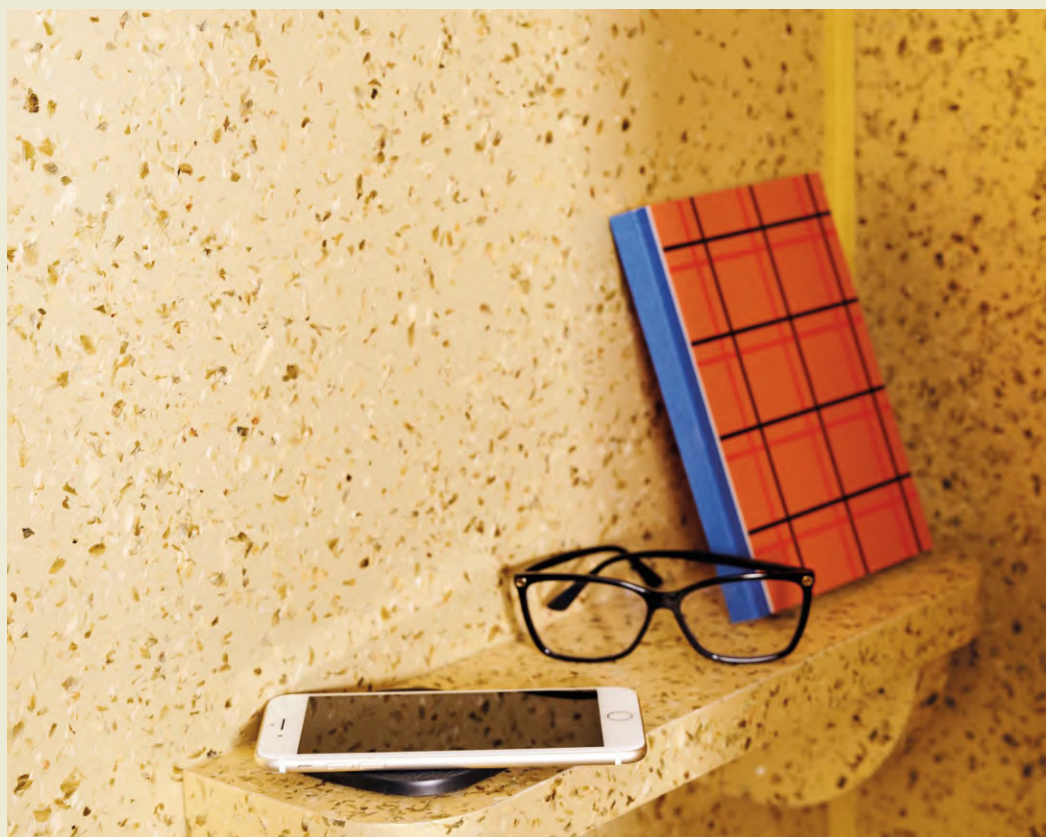

Exquisite designs crafted from delicate
natural materials, shimmering **gold paper**,
and natural **wool** create a special atmosphere
indoors. Let yourself be enveloped – by
natural **elegance and luxury**.

02 Wool Hotel Luitpold Chiemsee

PROCESSING

More infos:

Processing

As a wallpaper on walls and ceilings

- The surface must be clean, smooth and dust-free
- Apply adhesive to the wall, apply each strip in a double-seam cut
- You can find the right wallpaper adhesive on our website
- For gold paper, observe the soaking time

As a veneer on wood, wood composites, and furniture

- Processing with standard carpentry machinery
- Work with release paper
- Observe the maximum pressing temperature
- If necessary, follow the recommendation for a suitable backing material

As an adhesive film on acrylic, glass, etc.

- The surface must be clean, smooth and dust-free
- Apply opaque or translucent adhesive film using a dry process

FAQs

Cleaning	The surfaces can be cleaned quite easily by carefully wiping with a damp, lint-free cloth. Avoid using coarse brushes, aggressive cleaning agents and chemicals.
Delivery	All our natural surfaces – whether rolls or individual sheets – are rolled up on a cardboard cylinder and packaged securely for transport.
Delivery time	Most of our collection items are in stock and usually available for immediate delivery. For large quantities or custom-made items, please contact us directly.
Lifespan	Under normal indoor climatic conditions, the lifespan of our products is virtually unlimited, but they are subject to natural ageing processes, similar to wood.
Suitable for allergy sufferers	We have tested the allergenic effects of natural raw materials that are allergen carriers when fresh (such as hay, moss and birch leaves) in their processed state. No allergy-triggering emissions were detected in the end product.

Fragrance	The raw materials used are processed so gently that their natural fragrance is preserved. The intensity of the fragrance depends greatly on the temperature, humidity and air exchange rate, as well as on personal perception. Over time, the fragrance intensity decreases, as with any natural material.
Fire resistance	We classify our products according to product group using normative reference tests. All tested products in classic wall construction are flame-retardant (B-s1, d0 or C-s1, d0).
Abrasion	The abrasion behaviour is comparable to that of a painted surface (abrasion behaviour test: standards ENV 13669 and EN 13329).
Disposal	Simple disposal in household waste is possible. ORGANOID products on flax fleece can also be industrially composted (provided they do not contain any coarse glue residues).
