

<b>Product</b>	Name	Organoid® MOOS HELLGRÜN on flax backing self-adhesive
	Article number	MOSHGR0085FVSST
	<b>Producer</b>	Address ORGANOID® TECHNOLOGIES GMBH Nesselgarten 422 / Top 5 A-6500 Fließ Austria
<b>Description and applications</b>	Name	Organoid® MOOS HELLGRÜN on flax backing self-adhesive
	Description	Natural plant material in full coverage on natural non-woven flax backing on strong self-adhesive foil produced climate neutral in Tyrol, Austria
	Applications	Suitable for applications on smooth surfaces such as glass, metal, composite materials or rough surfaces like plasterboard or concrete. Ideal for adding a finish to furniture or walls.
<b>Plant material and density</b>	Plant material	Bright green upcycled moss
	Density	Premium density, full coverage
<b>Size and weight</b>	Size	1 360 mm by 2 950 mm
	Thickness	1.4 mm
	Weight	830 g/m <sup>2</sup>
<b>Product requirements</b>	Food-safety	Binding agent safe for usage in contact with food in accordance with EU-regulation 1935/2004
<b>Backing material</b>	Material	Non-woven blend of flax and viscose on self-adhesive foil
	Properties	Strong adhesive, backing made from renewable resources
	Requirements	PVC-free Contains no dangerous substances in accordance with annex 2, § 3 of the regulation (EC) 1907/2006 heat-resistant up to 120° C
<b>Technical implementation</b>	Cut	Use scissors, a cutter or a plotter
	Edges	Allow for imperfections 1-2 mm around the edges
	How to install	Draw the release paper from the self-adhesive foil, place on chosen surface (dry application)
	Pay attention to	Exact placement of the foil is important, as readjustments are not possible due to the strong adhesive qualities of the product
		The haptics and optical appearance of the moss can change with air moisture levels: with

increased moisture, the surface appears more smooth and soft, with lower moisture, it is harder and more brittle. This can lead to the surface area varying slightly. This may lead to gaps forming with butt joint application (up to 2 mm). This is a natural characteristic of moss and not a reason to issue a complaint.

Acclimatisation of Organoid natural surfaces:

- Bring product to room temperature before unpacking
- Store product protected from light, at about 20°C and 50-65 % relative humidity
