| <b>Product</b>                      | Name             | Organoid® WILDSPITZE ROSENGARTEN on flax backing self-adhesive   |
|                                     | Article number   | WSPROGU0075FVSRW   |
|                                     | <b>Producer</b>  | Address<br>ORGANOID® TECHNOLOGIES GMBH<br>Nesselgarten 422 / Top 5<br>A-6500 Fließ<br>Austria  |
| <b>Description and applications</b> | Name             | Organoid® WILDSPITZE ROSENGARTEN on flax backing self-adhesive   |
|                                     | Description      | Natural plant material in full coverage on natural non-woven flax backing on strong self-adhesive foil produced climate neutral in Tyrol, Austria  |
|                                     | Applications     | Suitable for applications on smooth surfaces such as glass, metal, composite materials or rough surfaces like plasterboard or concrete. Ideal for adding a finish to furniture or walls. |
| <b>Plant material and density</b>   | Plant material   | Delicate red rose petals on regional, hand-cut Alpine hay from the Tyrolean Alps   |
|                                     | Density          | Premium density, full coverage   |
| <b>Size and weight</b>              | Size             | Rolled goods, width 1 360 mm   |
|                                     | Thickness        | 1.4 mm   |
|                                     | Weight           | 840 g/m <sup>2</sup>   |
| <b>Product requirements</b>         | Food-safety      | Binding agent safe for usage in contact with food in accordance with EU-regulation 1935/2004   |
| <b>Backing material</b>             | Material         | Non-woven blend of flax and viscose on self-adhesive foil  |
|                                     | Properties       | Strong adhesive, backing made from renewable resources   |
|                                     | Requirements     | PVC-free<br>Contains no dangerous substances in accordance with annex 2, § 3 of the regulation (EC) 1907/2006<br>heat-resistant up to 120° C   |
| <b>Technical implementation</b>     | Cut              | Use scissors, a cutter or a plotter  |
|                                     | Edges            | Allow for imperfections 1-2 mm around the edges  |
|                                     | How to install   | Draw the release paper from the self-adhesive foil, place on chosen surface (dry application)  |
|                                     | Pay attention to | Exact placement of the foil is important, as readjustments are not possible due to the strong adhesive qualities of the product  |

Acclimatisation of Organoid natural surfaces:

- Bring product to room temperature before unpacking
- Store product protected from light, at about 20°C and 50-65 % relative humidity
