Product Name Organoid® MOSS GREY on adhesive foil,

opaque

Article number MOSGRA0085FVSST **Producer**

Address ORGANOID GmbH

Nesselgarten 422 / Top 5

A-6500 Fließ Österreich

Description and applications

Name Organoid® MOSS GREY on adhesive foil,

opaque

Description Natural plant material in full coverage on

natural flax backing on strong self-adhesive foil

produced climate neutral in Tyrol

Applications Suitable for applications on smooth surfaces

such as glass, metal, composite materials or rough surfaces like plasterboard or concrete. Ideal for adding a finish to furniture or walls.

Plant material and

density

Plant material

Grey upcycled moss

Premium density, full coverage Density

Size and weight Size Rolled goods, width 1 360 mm

> Thickness 1,4 mm Weight 830 g/m²

Binding agent safe for usage in contact with **Product requirements** Food-safety

food in accordance with EU-regulation

1935/2004

Backing material Material Non-woven blend of flax and viscose

> **Properties** Strong adhesive, backing made from

> > renewable resources.

PVC-free Requirements

Pay attention to

Contains no dangerous substances in

accordance with annex 2, § 3 of the regulation

(EC) 1907/2006

heat-resistant up to 120°C

Technical

implementation

Cut Use scissors, a cutter or a plotter

Allow for imperfections 1-2 mm around Edges

the edges

How to install Draw the release paper from the self-adhesive

> foil, place on chosen surface (dry application) Exact placement of the foil is important, as readjustments are not possible due to the

strong adhesive qualities of the product

The haptics and optical appearance of the moss can change with air moisture levels: with increased moisture, the surface appears more smooth and soft, with lower moisture, it is

harder and more brittle. This can lead to the

surface area varying slightly. This may lead to gaps forming with butt joint application (up to 2 mm). This is a natural characteristic of moss and not a reason to issue a complaint.

Acclimatisation of Organoid natural surfaces:

- Bring product to room temperature before unpacking
- Store product protected from light, at about 20°C and 50-65 % relative humidity
